

Student Experience Committee

This is a new policy for the catalogue, to align with the existing syllabus guidelines:

Official Class Roster

A student who is not on the official class roster (signaling they are registered for the class) cannot attend or participate in the class, regardless if the student is taking the class for credit or auditing. Any student who is not on the class roster has until the listed deadline to add on the appropriate academic calendar to register. A student should meet with the advising advocate of their major for directions if anything is preventing registration for the class. Students cannot attend a class while attempting to resolve the issue that is preventing registration.

Rational: *While it might seem generous to allow a student to come to class while they work out their registration snags, a student CANNOT be added to course after the official last day to ADD a course, and we cannot allow them act otherwise.*
